PROFESSIONAL EXPERIENCE

Sales Intern - Contemporary Amperex Technology Australia Pty Ltd (CATL) 09 Jan 2025 - 23 Jul 2025

- **Business Communication Meetings:** Participated in business communication meetings with overseas partners, working with the team to understand cooperation models, partner requirements, and project progress timelines.
- **Coordination Support:** Supported meeting scheduling, cross-time-zone communication coordination, travel arrangements, and related administrative tasks to ensure smooth business communication.
- **Agreement & Contract Review:** Reviewed selected cooperation agreements and contractual terms at a basic level to provide reference support to business colleagues.

KEY PROJECTS

Industry Experience Project (FIT3047)

S1 2026 Monash University

Business Analyst, Team Coordinator & UI/UX Designer

- **Problem Analysis & Requirements:** Analysed business requirements and translated stakeholder needs into functional digital solutions through user research and consultation with the product owner.
- **Process & Solution Design:** Led user journey and user story mapping to define requirements, prioritise features, and support project planning and team progress tracking.
- **Stakeholder Delivery:** Designed user-centred wireframes and interactive prototypes aligned with WCAG accessibility standards, presenting recommendations to stakeholders.

Maker Lab Innovation Project (FIT3146)

S1 2026 Monash University

Streaming Audio Device with Fingerprint Authentication

- **Human-Centred Design & Validation:** Applied user research, competitor analysis, prototyping, and product-viability assessment to develop and pitch an innovative proof-of-concept solution.

Commercial Banking & Finance Analysis

S1 2024 Monash University

Australia's Big Four Banks

- **Profitability & Risk Analysis:** Evaluated CBA, ANZ, WBC and NAB across 2017-2023 using ROA, ROE, leverage, and credit-risk ratios; presented peer-comparison insights through Excel data visualisations.
- **Forecasting & Insight:** Forecasted future ROE and risk-exposure changes under economic-downturn scenarios, supporting conclusions with current economic indicators.
