SKILLS

Python, Java, SQL	Data Visualization	User Requirements Gathering	Fast Learner, High
UI/UX Design	Data Analytics	Human-Centred Design	Resilience, Team Player

PROFESSIONAL EXPERIENCE

Sales Intern Jan 2025 - July 2025
Contemporary Ampere Technology - Sydney, NSW & Ningde, Fujian (Hybrid)

- Operational Insight:** Conducted 10+ on-site visits to in-house and partner battery manufacturing and system integration facilities, developing practical understanding of production workflows, supply chain coordination, and quality control considerations.
- Contract Support:** Supported review of LTSA and supply contracts by summarizing key commercial and technical terms to improve internal clarity and alignment among cross-functional teams.
- Stakeholder Engagement:** Observed senior partnership discussions with executives from Australia partnerships including mining company, developing an initial understanding of commercial negotiation dynamics.
- Market Research:** Researched potential clients in EV, energy storage, and renewable energy sectors to support business development initiatives.

EDUCATION

Bachelor of Business and Information Technology: Major in Banking And Finance, Business Information Systems Feb 2022 - Present

- GPA:** 3.5/4.0; **WAM:** 80/100
- Relevant Coursework:** FIT2002 IT Project Management (High Distinction - 88); BFF3231 International Finance (88); Business Finance (91); FIT2094 Database (81)

PROJECT

Maker Lab Innovation Project: Wooden Box Streaming Audio Device with Fingerprint Authentication - Monash University, Semester 1, 2026

- Human-Centred Design and User Research:** Applied human-centred design principles to identify user needs, conduct user research, and develop an innovative audio-streaming solution with fingerprint authentication.
- Market and Competitor Analysis:** Performed competitor analysis and product viability assessments to evaluate existing market offerings, and identify differentiation opportunities.
- Prototyping and Iterative Development:** Developed and refined functional prototypes through multiple design iterations, incorporating user feedback and testing outcomes to improve usability and functionality.
- Innovation and Product Validation:** Assessed technical feasibility and market potential to support the development of a proof-of-concept solution addressing user needs and industry trends.
- Business Pitch:** Present the final solution, business rationale, and product value proposition to academic stakeholders.

Industry Experience Project (FIT3047): Business Analyst, Team Coordinator, and UI/UX Designer - Monash University, Semester 1, 2026

- **Business Analysis and Requirements Gathering:** Analysed business requirements and translated stakeholder needs into functional digital solutions through user research and product owner representative consultation.
- **User Journey and Story Mapping:** Led the development of user journey maps and user story maps to define user requirements, prioritise features, and support project planning and team progress tracking.
- **UI/UX Design and Accessibility:** Designed user-centred wireframes, user flows, and interactive prototypes, ensuring alignment with WCAG accessibility standards and usability best practices.
- **Human-Centred Design:** Applied human-centred design methodologies to identify pain points, improve user experience, and enhance solution accessibility.

Commercial Banking and Finance Analysis Project – Australia's Big Four Banks - Monash University, Semester 1, 2024

- **Profitability and Risk Analysis:** Evaluated the financial performance of Australia's Big Four banks (CBA, ANZ, WBC, NAB) by analyzing ROA, ROE, leverage, and credit risk ratios across a 6-year period (2017-2023). Presented trends and peer comparison insights using data visualizations in Excel.
- **Forecasting in Economic Downturn:** Forecasted future ROE and risk exposure changes amidst economic slowdowns, interest rate fluctuations, and evolving regulatory frameworks, supporting predictions with current economic indicators.
- **Data Collection and Visualization:** Compiled raw financial data from annual reports, constructed key financial ratios, and produced professional line graphs to communicate findings clearly in the written analysis.

ADDITIONAL INFORMATION

- **Languages:** English, Mandarin.
- **Activities:** Monash Business Competition (2024); Student Panel Speaker (Shared academic and career insights with prospective UG and PG students during university information sessions)
